Message from Patron in Chief

I extend my heartiest congratulations on the auspicious occasion of the annual meeting of the Zakariyan Alumni Association of Physicists (ZAAP) 2012. Physics department is regularly organizing the meetings which ensure its concern, commitment and devotion to alumni. This kind of celebration is a major source of interaction among the alumni serving the nation in different fields. Physics department of BZ University is one of the leading departments which have shown remarkable achievements in the field of scientific research, curricular and co-curricular activities. The role of the physics in the world is very important. All the facilities, luxuries and comforts of life are due to the blessing of Physics. In the end I would like to appreciate entire faculty members of the physics department for their overall outstanding performances and pray for the better future.

Prof. Dr. Syed Khawaja Aqama

Message from Patron

This is indeed a great honor for me to have an opportunity to write a message on the occasion of the Annual Meeting of Zakariyan Alumni Association of Physicists (ZAAP) 2012. ZAAP is an association of the graduates from the department of Physics established in 2003. I was elected as the first president of the Alumni. Since its establishment it has been involved in distinctive activities to foster unity and mutual cooperation amongst the members. I have no doubt in my belief that it is essentially the university time in the whole hierarchy of education that

This is indeed a great honor for me to have an opportunity to write a message on the occasion of the Annual Meeting of Zakariyan Alumni Association of Physicists (ZAAP) 2012. ZAAP is an association of the graduates from the department of Physics and established in 2003. I was elected as the first president of the Alumni. Since its establishment it has been involved in distinctive activities to foster unity and mutual cooperation amongst the members. I have no doubt in my belief that it is essentially the University time in the whole hierarchy of education that plays a tremendous role with regard to formative impact on the educational life of the students. It is at this stage that students extend their critical as well as creative abilities to pave the way for more in-depth inquiries in their practical life. I am extremely happy to see that Department of Physics has made remarkable progress over the years. Its quality of education and technological periphery is praiseworthy. Various programs offered at undergraduate/graduate levels are of high standard and will contribute significantly towards the improvement of research and development activities in the years to come. The faculty has dedicated their professional lives in helping students to achieve their personal and career goals. Students of the Department are the cream of the academic society and will therefore be expected to play a momentous role in the expansion of this progressive association.

I would like to express my heartiest congratulations to the management, faculty and students of the Department of Physics B.Z University Multan on the successful completion of Ten years since the establishment of ZAAP with the hope that they will continue their struggle with much more vigour and enthusiasm to come up to the expectations of the community.

Prof. Dr. Ejaz Ahmad Chaudhry
It is indeed a great pleasure to write about ZAAP annual meeting. Since 2003, ZAAP has introduced a new concept and dimension of connection between alumni and current students.

Mr. Ramzan Khawar
Ph.D. Scholar

ZAAP meeting has really now become a memorable event of the department of Physics. All the students and alumni wait the whole year for this grand event.

Umair Nissar, M. Phil. Scholar

It is a splendid event which provides a platform to meet the high profile students and experts. Participation of students in curricular activities will eventually result in enhanced confidence level and will surely make them best citizens.

Maria Sadiq, M.Sc. (M) Part 2nd

ZAAP is just like a bridge between old and new physicists for their advancement.

M Imran Saleem,
M.Sc. (M) Part 2nd

It is my great pleasure to attend the ZAAP 2011. It became a mega event for me. It gave me the opportunity to meet the old students of the physics department and share their experiences.

Aqsa Iqbal, M.Sc. (E) Part 2nd

ZAAP has been working to strengthen its connection with all members and students as well as for the support of students to minimize their financial constraints.

Hira Liaqat,
M.Sc. Applied Physics, Sem. 3rd

I have seen many functions in my life but the ZAAP meeting is only one which touches my heart. All performances give us a moral lesson.

Ansar Majeed Gadi
M.Sc. (E) Part 2nd

It is a wonderful event for the students of physics to sit and share their vision about physics with great physicists who join this ceremony.

Attia Batool
M.Sc. (M) Part 2nd

I have always liked Physics and Math and was blessed with particularly good and committed teachers who opened my eyes to the beauty of them. During my two year stay, I found the environment very competitive and productive. My education at BZU proved to be very useful and interactive. I would also like to thank for the opportunity that was given to me to manage ZAAP annual meeting. ZAAP provides to students an excellent opportunity to meet BZU physics department alumni and get benefited from their professional experience and knowledge. I loved being at BZU and I will miss it dearly!

Shumila, M.Sc. (M) Part 2nd

ZAAP function is an opportunity to meet the fresh and former students and also giving us the platform to introduce our abilities.

M. Zahid
M.Sc. (E) Part 2nd

It’s a great event for all students to create harmony and friendly environment among the physics students and the teachers.

M. Sajad Kashmi,
BS-4 Years, Sem. 8th

ZAAP is a memorable life line between students and physics, as well as the source of new progressive horizons.

Mudasir Ali, M.Sc. Applied physics, Sem. 3rd

It’s a great event for all students to create harmony and friendly environment among the physics students and the teachers.
Spring multiplies its beauty when it brings perfumes, jocund moods, flavors, colours and meetings. ZAAP members are highly fortunate and blessed for all the bounties of spring were highly enjoyed by them on 24 April, 2011 during ZAAP annual meeting.

After a lot of things were observed like enthusiastic participants, welcoming hosts and management, glittering lights, decorated halls and corridors, feelings of pleasure reminiscences of the past, high aims for future gratitude for all those who served and grateful souls colorful flowers and blooming youth.

The formal session began after Maghrab Prayers with the arrival of Prof. Dr. Ejaz Ahmad, Chairman Department of physics as chief guest. In a traditional way, recitation of the Holy Quran and Naat announced the beginning of the function.
The beautiful way of welcome from the regular students was a true reflection of their consideration for the seniors. Other items like “Physics in court”, Physical Molvi”, “Lalo in marriage Buru”, one man show of Mr. Ramzan and a beautiful song by Prof. Zia-Ul Hasan from Layyah had great applause from the audience.

Highly memorable and appreciable was the progressive speech of Prof. Dr. Ejaz Ahmad. His speech really proved to be a beacon house for the current sessions. He came to the stage and offered thanks to the chief guest, worthy arrivals, colleagues, managements and students of all sessions. He requested colleagues and managements to pay their due roles regarding assignments given to them. Students were advised by him to achieve their set goals and endeavours new horizon of knowledge and success. The worthy guest of honor praised highly the ZAAP scholarships as a boon for the promotion of education among needy students. He also saluted the efforts of ZAAP for all the services they are rendering to the department of physics.
Meanwhile a number of celebrities including Col. Atta Mohiuddin, Prof. Ajmal, Prof. Tanveer Shah, Prof. Hamid, Mr. Alamgir, Mr. Shamas and Dr. Ishitaq Ahmad were invited to the stage to share the pleasing memories and offer sincere wishes.

During the culminating session the founder of ZAAP, Prof. M/ Tariq Bhatti left everlasting imprints on the souls of invitees through his thoughtful speech. He was favoured by the worthy guest Prof. Farooq Hayat khan of Layyah quite remarkable for offering serious and acknowledgeable matters in a non serious way.

The moment came when the whole audience rose up from their seats as they were welcoming Prof. Dr. Muhammad Ashraf Chaudhry with great applause. In his meaningful speech, Prof. Ashraf thanked the audience and shared his feelings for the progress of his born child ZAAP.

After these speeches there was the session of offering shields. The shields were handed over the distinguished guests. The students reaching the top notches were also awarded to appreciate their intelligence and to inspire the rest of the students to tread the path cherished by such achievers.

The last ordeal for the guests was to enjoy a sumptuous dinner as they already observed a lot of mental physical labour. In this way an interesting and memorable event culminated but its memory would remain alive in their minds atleast till the next meeting of the ZAAP.
DONATIONS / ZAAP SCHOLARSHIPS

Prof. Dr. Mohammad Ashraf Chaudhry

One of the important objectives of ZAAP was to support students to enhance their academic potentials by minimizing their financial constraints which might be hindering in their studies. For this purpose a special fund is being raised through ZAAP own resources and Donations from the ALUMINI. In this regard, a committee comprising senior faculty members is formulated by the ZAAP executive council. The committee select deserving students through rigorous processes and distribute about Rs. 100,000/= every years. This good deed will only be sustained with the cooperation of our respectable members. Donations in this regards will be highly appreciated.

For Contribution send Amount in: Account No. 448-0303, HBL BZU Branch Multan.

OVERVIEW OF THE DEPARTMENT OF PHYSICS

Dr. Ishtiaq Ahmad Soomro

The Department of Physics was established in 1975. Department is situated in the core of Science block at BZU main campus. Along with teaching laboratories it has its own Computer Laboratory, Seminar Library, Workshop and Lecture Theatre. The department is conducting teaching/research at the BS(4-Years), M.Sc. (Physics), M.Sc. (Applied Physics), M.Phil. And Ph.D. levels. Due to increase in number of programs offered in the department, extension in the building is in progress. The department is establishing well equipped research laboratories which are capable of producing world level research work and it is being published in high ranking journals. The department is regularly producing an average of about 15 M.Phil. students every year.

Currently, 40 M.Phil. and 37 Ph.D. regular students are registered with this department. Eight scholars have already been received Ph.D. degree from this institute. Recently two scholars have completed Ph.D. Degree under the supervision of Dr. Misbah-ul-Islam. During the last 38 years, many Faculty Members who served the department are now either retired or are serving at other places. The following names may remind you the sweet memories you might have cherished during your stay at the department.

Dr. G. Rasul Chaudhry (R)
Dr. G. Rasul Awan (R)
Syed M Ahmad (R)
Dr. M. Saeed Zafar (R)
Dr. Zaka-Ullah, QAU
Mr. Allah Ditta, (Kabirwala)
